EDUCATION

B.Tech, CSE

United Institute of Technology (AKTU)

2025 - 2029

Class 12 — 86.85%

Class 10 — 81.54%

JEE Main — Qualified

TECHNICAL SKILLS

- C / C++
- Python
- HTML, CSS, JavaScript
- Data Structures & Algorithms
- Git & GitHub (learner)

INTERESTS

- Problem Solving
- Software Development
- Mathematics

CAREER OBJECTIVE

B.Tech Computer Science Engineering student with a strong interest in software development and problem solving. Currently strengthening skills in programming, data structures, and web development while building practical, hands-on projects.

PROJECTS

Student Management System

Python · Tkinter · MySQL

- Built a desktop application to manage student records with a Tkinter-based graphical interface.
- Implemented a MySQL backend for persistent, structured data storage and retrieval.

Web Development Project

HTML · CSS · JavaScript

- Developed a responsive website using core front-end web technologies.
- Focused on clean structure, styling, and interactive elements with JavaScript.

KEY STRENGTHS

● Analytical Thinker

Strong mathematical foundation applied to logical problem-solving.

● Fast Learner

Actively building skills across DSA, web development, and Git workflows.

● Hands-on Builder

Prefers learning through real projects over theory alone.
